

MUSIC EDUCATION

Program Overview

The undergraduate Music Education degree normally takes four years to complete and includes courses in music education, musicianship studies, general education, and field experiences. Each year students engage in increasingly intensive field experiences, culminating with a semester of full-time student teaching in the last year.

All music education majors must maintain a portfolio of work providing evidence of their suitability for teaching. Portfolios are reviewed as part of the Sophomore Review taken near the completion of 60 credits. Music Education majors must maintain a minimum cumulative grade point average of 3.0. Students whose general progress is unsatisfactory or whose cumulative grade point average falls below a minimum 3.0 level may be dropped from the Music Education major. If a student is dropped from the major because of failure to maintain the minimum grade point average, s/he may apply for readmission to the Music Education department. Readmission will be dependent upon various criteria, including the G.P.A., current academic progress and the student's general standing. Decisions regarding retention or appeals will be made in a manner consistent with state and institutional non-discrimination policies.

At the time of the sophomore portfolio, students with a high GPA and excellent writing skills may be invited into the 4+1 Bachelor of Music/Master of Music Education program. As part of this dual enrollment program, students can take master's level courses during their junior and senior years that can be applied toward their Master of Music Education degree. Many students can complete the MME degree in one additional year of study. Summer study and/or J-Term study may also be necessary. Students in this program are required to maintain a GPA of 3.0 or above and are provided a fifth year of funding equal to their undergraduate financial package.

To graduate, students must complete all requirements for New Jersey teacher certification for Certified Educator with Advanced Standing (CEAS). **Students who want to be able to apply for teaching positions in other states should become familiar with teacher certification requirements for states of interest ASAP to determine if additional coursework is needed.** In addition to successfully completing required coursework, the State of New Jersey requires students to:

1. Satisfy basic skills (reading, writing, math) proficiency as a prerequisite for taking the Sophomore Review. Proficiency is satisfied for students who score at or above the identified cut scores on the SAT or ACT. Students who do not have sufficient SAT or ACT test scores must pass the Praxis Core Academic Skills (<https://praxis.ets.org/state-requirements/newjersey-tests.html>) tests to satisfy basic skills proficiency.
2. Complete a minimum of 50 hours of clinical experience during the first four semesters and 175 hours of clinical practice before full-time clinical practice (student teaching).
3. Pass the Praxis Music Content Exam.
4. Pass the performance-based edTPA Exam.

Curriculum Overview

The Music Education curriculum includes courses in elementary and secondary general music education, choral music education, instrumental studies, music technology and creativity, and students with special needs. An innovative four-course sequence integrates theoretical foundations of planning, teaching, assessing, and musicianship development with practical application through peer teaching and field-based music teaching. The undergraduate Music Education curriculum is intended to develop teachers who are reflective, who acknowledge the connections music has to the child's world and who seek to promote an understanding of those connections in a social context.

Music Education Portfolios

All Music Education majors must maintain portfolios of work providing evidence of their suitability for teaching. Portfolios of undergraduates are reviewed by the department with students when they have earned at least 60 credits as well as upon completion of ME 492. Students must pass the portfolio review to continue in the department. Portfolios of graduate students are reviewed each year.

Student Teaching

Student teaching is a full semester in duration and is usually completed during the seventh or eighth semester of study. Students may not enroll for any applied or classroom courses during the semester of student teaching, except for ME 587. In addition, students may not present or participate in recitals or choral performances or ensembles during the semester of student teaching. Further departmental policies regarding the student teaching semester are contained in the Music Education Department Handbook. Students are referred to the paragraph above which relates to registering for the student teaching semester.

Practicums and Field-based Observations

In addition to the standard student teaching semester in the senior year, a special feature of the Westminster Choir College program is the experience of observation and teaching in the context of the Art of Teaching Music courses ME 161, ME 262, ME 563, and ME 563. These combine instruction in music methods with practical experience in public school contexts. Several music education courses require students to make observations of music classes in urban, suburban, public and/or private schools.

Students must be prepared to arrange for transportation to and from practicums at a reasonable distance from the college and to sustain related expenses.

Students will be required to obtain a background clearance in an assigned school district in order to participate in a field experience. Students who have been convicted of a felony may not be approved for field experiences, and are not able to receive New Jersey State Teacher Licensure.

¹ Appropriate mathematics and science courses may be substituted if required by the major. Students may also fulfill this requirement by taking an upper-level MTH course (e.g., MTH 210 (<http://catalog.rider.edu/search/?P=MTH%20210>), MTH 211 (<http://catalog.rider.edu/search/?P=MTH%20211>)).

² Students who choose a Psychology (PSY) course to fulfill a requirement for Scientific Perspectives may not choose a Psychology (PSY) course to fulfill a requirement for Social Perspectives, and vice versa.

³ Due to the interdisciplinary nature of BHP classes, upper-level seminars may satisfy two different categories for the Disciplinary Perspectives. For courses that satisfy more than one DP category, BHP students much choose which general education requirement they would like the course to fulfill.

Certificate in Music Education

(9 credits)

The certificate in Music Education is intended for undergraduate students in other degree programs, both within or outside of Westminster Choir College. Students who have an interest in teaching music or intend to teach music as part of their future careers as performers, church musicians, elementary educators, etc. will be provided with the foundational knowledge needed to pursue their chosen path. This certificate is not intended for students who will teach full-time in a public school. This certificate does not lead to any state teaching certification.

Courses and Descriptions

CR 109 Chapel Choir 1 Credits

Comprised of undergraduate students in their first year of study, Chapel Choir focuses on music for men's, women's, and mixed chorus. The ensemble provides the fundamentals of artistic choral ensemble singing and a foundation for all Westminster choral ensembles. Placement hearing required.

CR 209 Schola Cantorum 1 Credits

Comprised of undergraduate students in their second year of study, Schola Cantorum focuses on music for mixed chorus and continues to build and refine the skills developed in Chapel Choir. This ensemble presents campus, community, and regional performances. Placement hearing required.

CR 215 Fundamentals of Conducting 3 Credits

This course provides the foundation of conducting technique and philosophy as it relates to choral ensemble. Primarily, it deals with the development of basic pedagogical proficiencies, specifically alignment, Laban gestural vocabulary, breathing, beat patterns, consistent tempo, and the development of expressive gesture for relaying various styles of music, i.e., legato, staccato and marcato. Basic philosophical understandings concerning the human aspects of the music making process and the role the conductor plays in that process also are emphasized. Specific techniques for dealing with technical elements, e.g., fermata, dynamics, changes of tempo, contrasts in style, also are covered. The overall focus of the course is to establish the important relationship between ear, body, and the choral sound.

Prerequisite(s): TH 141.

CR 315 Techniques of Conducting 3 Credits

Continued development of conducting technique with emphasis on more complex styles and patterns, and on communication through appropriate gestures. Further improvement in conducting various dynamics and articulations, as well as more effective use of the left hand. Rehearsal procedures, repertoire programming, score preparation, and baton techniques are incorporated into the course.

Prerequisite(s): CR 215.

CR 509 Symphonic Choir 1 Credits

A large mixed chorus comprised of students above the lower division, including graduate students from all disciplines. The ensemble regularly performs in the region and focuses on the major choral/orchestral repertoire along with a wide variety of repertoire for large mixed chorus. Placement hearing required.

ME 111 Music Education Lab 0 Credits

Undergraduates must meet the weekly attendance and participation requirement for Music Education Lab during every semester of enrollment up to seven semester as an undergraduate Music Education major except for the student teaching semester. Grading is "P" (satisfactory) or "U" (unsatisfactory). As part of the Music Education Lab experience, students are required to complete 15 hours of professional development.

ME 161 Art of Teaching Music I 3 Credits

Art of Teaching Music I (ATM I) is first in the sequence of Music Education courses designed to prepare undergraduate Music Education major students for their student teaching experience and completion of their teaching licensure. There will be field observations of master teachers under the aegis of a music education faculty that will allow students not only to observe, but to have guided experience in assessing how teaching and learning are experienced in real classrooms. Partnerships between local expert teachers and music education faculty will allow students to complete field observations as well as guided experience in teaching and assessing students in real classrooms.

ME 187 Instrumental Music: Strings 1 Credits

This course is designed as an introduction to the pedagogy of string instruments. Emphasis is on learning through performance. Instruments are required. Various methods and materials available for use in public schools, developmental ranges, transposition, scoring, and idiomatic writing are investigated. When available, instruments may be rented from the college. Rental fee, per instrument: \$25.

ME 188 Instrumental Music: Winds/Percussion 2 Credits

This course is designed as an introduction to the pedagogy of brass, woodwind, and percussion instruments. Emphasis is on learning through performance. Instruments are required. Various methods and materials available for use in public schools, developmental ranges, transposition, scoring and idiomatic writing are investigated. When available, instruments may be rented from the college. Students must provide their own drum pads and sticks. Rental fee, per instrument: \$60.

ME 262 Art of Teaching Music II 4 Credits

Art of Teaching Music II (ATM II) is designed to build on the knowledge, skills, and dispositions, introduced in ATM I. Students will expand their abilities in the domains of planning, teaching, assessing, reflecting, developing musicianship, and philosophy in context of teaching general music. Moreover, they will have the opportunity to put these abilities into practice when teaching peers and teaching elementary and middle general school students.

Prerequisite(s): ME 161.

ME 492 Student Teaching 12 Credits

A full semester internship in directed full-time teaching supervised by department members and carried out in schools with approved cooperating teachers. In addition to the field experience, students attend a weekly seminar on campus to discuss current issues in music education as they relate to individual teaching situations. Students discuss classroom management strategies, action research, authentic instruction, critical thinking, feeling and action as well as teaching to focused questions, concepts and objectives. Throughout student teaching, students maintain a digital portfolio that demonstrates how they meet the New Jersey State and INTASC teaching standards. At the conclusion of the semester, students attend a portfolio review with members of the Music Education faculty to assess the success of the teaching experience. Students must provide their own transportation to student teaching site. Student Teaching fee: \$245. Fees for the Praxis Examination and Teacher Certification are additional. Additional information regarding student teaching may be found in the department's Student Teaching Handbook at www.rider.edu/musiced.

Prerequisite(s): Minimum grade of B- in ME 564; Classification as a full senior; Satisfactory completion of music education courses numbered ME 161, ME 262, ME 563, ME 564, ME 187, ME 188, and either PSY 230 Child Developmental or PSY 231 Youth and Adolescent Development; Satisfactory completion of TH 241; For voice primary students, satisfaction of all requirements of PI 204; A minimum 3.0 cumulative GPA; Demonstrated aptitude, motivation and potential for success in teaching, as evidenced by the successful completion of portfolio reviews; Departmental approval; Students in the Master of Music Education (MME) degree program must take the following courses as prerequisites to student teaching; ME 563, ME 564, ME 725.

ME 563 Art of Teaching Music III 4 Credits
